

Establishing an Unemployment Claim

Establishing a New Claim

If you become unemployed and have worked in Vermont anytime in the past 18 months, you may be eligible to receive unemployment insurance.

Once you become totally or partially unemployed, the time to establish a new claim is during the first week you work less than 35 hours.

An unemployment compensation claim becomes effective when filed, so if you choose to wait to file your claim, then you may not go back to the date you first became unemployed.

A Customer Service Representative is available to assist you with this process. A [list of required information](#) needed when you call is provided for your convenience.
