

## S.T. Paving, Inc

### ABOUT

S.T. Paving is a full-service asphalt company. Our crews' complete projects range from driveway installation to new parking lot construction, and paving town roads.

Providing a great finished product through quality workmanship is a core value at S.T. Paving. Most of our staff have been with us for more than 10 years—many more than 20!

When you work with us you are getting top-quality work because we will always adhere to the project's specifications so that you know that you are getting exactly what you paid for.

We do all asphalt work ourselves. We will never subcontract our work. We believe in our workmanship and take it seriously. We use only the highest quality state and federally approved construction materials, and we maintain and update our equipment regularly.
