

# CASELLA WASTE SYTEMS

ESTABLISHED 1975

## ABOUT

The concept of sustainability is not new to Casella. For over forty years the foundation of our business has been built on managing and conserving environmental resources for our customers and communities in a viable economic model.

Our local outreach programs support the communities where Casella employees and stakeholders live and work. Our focus is to support programs that enhance our environment, our communities, and our future.

Casella employers make decisions and solve customer problems every day. We make good decisions for our business, customers, and communities when we adhere to our mission and core values, which provide a shared framework within which to apply our individual skills and strengths to solve problems.

Mission: To create value by renewing and sustaining our resources and our environment.

## EMPLOYMENT OPPORTUNITIES

### Customer Care Representatives

Full-time and Part-time, \$14.50 to \$16.50 an hour

The Customer Care Representative provides outstanding service to our customers by responding to a high level of inbound customer calls, inquiries and requests which may require research and investigation to reach resolution. The incumbent actively engages customers to ensure complete understanding of the issues and provide accurate and efficient responses in a prompt, respectful and courteous manner.
