ABOUT

Great work takes great people. At PC Construction, our teams are the best. How do we keep the best? We make PC Construction a rewarding place to work by offering benefits that go beyond the industry standard, providing opportunities to grow and learn, and giving our people the motivation, encouragement and support to go one step beyond every day.

PC Construction was built on tradition, integrity, and trust. Those same values were handed down over our long history and remain the framework for how we do business. When you work at PC Construction, you work alongside men and women who share these beliefs — that is something you can count on.

When talented people join the PC Construction team, they become more than just an employee — they become an owner. Because we are 100% employee owned, each of us has a stake in PC Construction's success. We know that our actions directly impact our customers and our bottom line. That is why we successfully complete every aspect of our work as a team — from estimating the details of a new project to placing thousands of yards of concrete. We teach each other and learn from each other to get the job done and get it done right. We take great pride in the success we achieve together.
