

## ABOUT

We formed this company to make a difference. After years of leading correctional institutions – and their oversight boards – we know there’s a better way. We know how to deliver safe, high-level healthcare at a lower cost. We know how to attract and retain top talent. We know how to partner with leaders in and out of the institution. We know the value of a top-notch telehealth program.

We know that the corrections industry deserves well-run healthcare – and we’re here to make that happen.
