

ABOUT

Mt. Anthony Stone & Tree Services is a father & son business that started 16 years ago. We are located in Bennington and Pownal. Our main goal is to provide a reliable and quality lawn and tree service to our clients.

We have all types of mowers and string trimmers to mow 50 plus lawns.

Our year around tree service tree service utilizes a tree bucket truck, chipper, all size chain saws, dump trucks, and a bull dozer in taking down and removing trees.

We also provide a masonry service. We install all types of stone works. From brick chimneys, to concrete and flagstone walks, stone walls to staircases etc. On occasions we will also resurface driveways with gravel.

We also have a very large snowplow route in the winter months that requires much help.

Our yard in Pownal includes firewood, compost pile, and a small tree nursery.

we are looking to hire someone who is reliable and likes to work outdoors with equipment. You must be able to work well in a 2 to 3 person crew. On the job training available. You should be able to lift and 80 lb. bag of concrete safely. You must have the willingness to wear safety equipment, like boots, gloves, helmet, and safety glasses when needed.
