

ABOUT US:

Ocean State Job Lot is the largest closeout retailer in the Northeast. We opened our first store on August 15, 1977 in North Kingstown, Rhode Island. We started the business with the idea that people work hard for their money, so if we can help them stretch their dollars by saving them money, we'll be successful. So far, so good!

Strong teams outperform strong individuals. As a growing organization, Ocean State Job Lot continually seeks talented and dedicated people who will help shape our future growth. We value our associates' daily contributions to making our company a success. We are inspired every day to help passionate people build their careers, and to become their employer of choice. In addition, Ocean State Job Lot is committed to making each of our communities a better place.
