

# JOIN THE CABOT TEAM

We love sharing our farm families' commitment to quality and helping bring the world's finest dairy products to family tables everywhere.

Image represents our team spirit, but we now keep a cow's distance of space, and wear face coverings to keep each other safe.

## AMAZING BENEFITS

You'll enjoy access to a comprehensive health insurance package, competitive salary, and retirement support with 401K matching and pension that lets you plan for the long term.

## GREAT PERKS

We take care of our employees with tuition reimbursement for continuing education, fun company outings, community events, and of course, occasional free cheddar!

## BEAUTIFUL LOCATIONS

Our corporate offices and processing plants in Vermont, New York, and Massachusetts are situated in gorgeous settings that make working for Cabot even more beautiful.

## THE CABOT DIFFERENCE

Our farmers are the heart and soul of Cabot and every day produce the fresh, pure milk that makes award-winning Cabot products. They work hard for us and we work hard for them. Together, we make the Cabot Co-Op a family like no other.

## B CORP

Our farmers made history when they became the world's first dairy co-op to be a certified B Corp. We re-commit to our B Corp values every day, doing business in a way that's better for our farmers, our team members, and our communities.

## AWARD-WINNING LEGACY

At Cabot, you're part of something delicious. How delicious? Guided by our farmers' passionate commitment to quality and freshness, Cabot products have won every major award for taste.

We encourage you to visit our website to learn more and see all available positions.
