

Harbour Industries

Harbour INDUSTRIES

ABOUT

Since 1965, Harbour Industries has been manufacturing high temperature and high performance cable for the military, commercial, and industrial markets. Harbour's headquarters located in Shelburne, Vermont house manufacturing, sales, warehousing, and engineering. The Shelburne facility manufactures a wide range of wire and cable products utilizing numerous conductors, insulating compounds, braid wire, and jacketing materials. All of Harbour's RF/Microwave cables are manufactured in the Shelburne, Vermont facility.
