

# Long Falls Paperboard

## ABOUT

After more than half a century of innovating to serve customers, the Brattleboro mill has earned a reputation as a unique manufacturing facility in the U.S. paperboard industry. Custom color, coating, and embossing capabilities at our Vermont facility, produce paperboard with unique physical characteristics and distinctive finishes.

With the ability to produce custom, fiber-based covering materials and a commitment to authentic communication and dependable service, our team is trusted to take products from concept to reality for industries worldwide.
