

## ABOUT

New Chapter® is a Vermont-based vitamin and supplement company with a deeply held mission to revolutionize natural wellness. Since 1982, we've been raising the bar to make supplements that your body can really, truly absorb. That means sourcing excellent quality ingredients from where they grow best. It means innovating. Testing. Fermenting. Testing again. Yep... it's a lot. And we do it all with non-GMO ingredients and no synthetic fillers. That's wellness, well done.
