

VERMONT PASSENGER TRAMWAY FORMS MANUAL

Incident Reports

When is a personal injury report required?

An Incident Report is required when there is a possible personal injury and first aid personnel are notified of the need to assess the injury. Examples of such injuries or incidents include, but are not limited to:

- Contusions
- Twisted knees
- Falling on ramps
- Getting hit by the chair

When is a Mechanical/Electrical Report required?

Anytime service of a lift component is required during normal operational hours. Some examples:

- Repair of safety switches
 - Electric motor drive malfunction
 - Any safety system bypass function
 - Any occurrence of rope evacuation
 - Anytime a lift is unloaded of customers by APU
- OR:**
- The occurrence anytime of cable deropement, possible haul rope or grip damage.

What is the area limit on personal injury incidents?

The area in which an incident shall be reported includes from when the passengers first enter the lift loading area to the bottom of the unload ramp.

How to complete the Incident Report:

- Typewritten or legible printing
- Must be received by the Tramway Division within 72 hours of the incident
- Mechanical incidents must be reported to the Tramway Inspector or the Tramway Division immediately upon occurrence
- Remove the white copy for your files and forward the yellow and pink copies to the inspectors.
