

Bolton Valley Resort

ABOUT

Just a short 30-minute drive from downtown Burlington and Lake Champlain, yet surrounded by over 5000 pristine acres of high mountain forest, Bolton Valley has grown into a small alpine village and fostered a totally unique community of outdoor enthusiasts, families, and professionals. At Bolton Valley the recreational opportunities at your doorstep are as numerous as the views are spectacular.

Bolton Valley is a beautiful place with a fun welcoming community, and it sits right in the heart of North Central Vermont. There is truly no other place like it.

Bolton Valley sits high in the Green Mountains of Vermont and boasts the highest base elevation of any ski area in the state. The access road to the resort climbs two thousand vertical feet out of the beautiful Winooski River Valley and provides visitors with unequalled access to the highest reaches of the Green Mountains – not to mention breathtaking westerly views of Lake Champlain and the Adirondack Mountains beyond.

Guests and residents can start their outdoor adventures at their front door, or take a short, beautiful drive or bike ride to some of the best sights and venues Vermont has to offer.
