

NFI Vermont, Inc.

Providing Innovative Mental Health and Educational Services to Vermont's Children & Families

ABOUT

The NFI Hospital Diversion Program is a short-term inpatient facility for adolescents experiencing acute psychiatric crisis. Adolescents are referred to the NFI Hospital Diversion Program by private practitioners and Designated Mental Health Agencies throughout the state of Vermont. These staff secured facilities serve individuals ages 10 through 18 who typically reside in the program for approximately 5 to 10 days. The trauma informed staff team is comprised of approachable and enthusiastic residential counselors, competent master's level clinicians and an experienced psychiatric team; all available 24 hours a day.
