

HearthStone Quality Home Heating Products

ABOUT

For years, our dedicated Vermont craftsmen have been committed to building quality stoves, handcrafting each HearthStone to meet the highest standards using the finest materials and the most advanced heating technology. As proof, every HearthStone soapstone stove is signed by the stove builder.

The HearthStone brand is an assurance – a guarantee that your appliance is built in the rich tradition of our company, and will serve you faithfully for years to come.

With over 42 years of manufacturing in Morrisville, VT, HearthStone Quality Home Heating Products stands as a worldwide leading producer of wood & gas home heating stoves, as well as outdoor cooking appliances. Through an established tradition of time-tested craftsmanship, our products are widely recognized for style, efficiency, and quality. Our newest innovations in low emission technology are pioneering the next generation of green hearth products.

It is the staff of Hearthstone that make all this possible. As a small but powerful company, we seek out good-natured individuals that demonstrate a high degree of professionalism and dedication. We understand that a work/life balance is important. Our company culture mixes fun with getting it done. Several senior staff members advanced through the company after beginning their careers more than 20 years ago.
