

ABOUT:

SB Signs is a busy and growing sign company in Williston looking for an employee to work as an installation technician. We are a family business with a strong focus on a positive and supportive work environment. We are looking for an applicant who wants a long term position with room for growth within the company. Paid vacation and sick/personal days are included in compensation package.

Qualified applicants will have experience with power and hand tools, and some type of building or related production history is preferred. No industry specific skills required, as we will train, but general and demonstrable shop skills are necessary. Basic electrical knowledge is a bonus.

Our business is varied, depending on the job, and applicants must be able to adjust to a variety of tasks, from production to installation, and need strong customer service skills for when on the job site. A good applicant has a history of being self-motivated on the job, always looking ahead to the next task. Applicants must be okay with heights, as up to 65' lift is used on a regular basis.

Ideal applicants will enjoy working outside in all seasons, as the majority of sign installations are exterior.

Clean driver's license and reliable mode of transportation to and from work are mandatory.

JOB OPPORTUNITY:

Sign Installation Technician

Full time/40 hours/week; on-site training provided

Please forward resume (with at least two professional references) to hr@sbsigns.net
